

Integrated Research Training Group – IRTG

Career Seminar

In the new “Career Seminar” series, we are inviting former PhD, MSc, BSc and Diploma students that are now working in industry or science. We want to provide a large overview of different areas with possible career options for biologists. The invited speakers will present their *curriculum vitae* and their experiences and daily business of their current job position. After a short presentation, we hope for a lively discussion in a relaxed atmosphere!

Dr. Oliver Birkholz

Scientist
Formulation & Drug Delivery
Analytic & Assay Development
BioNTech SE
Mainz

Oliver Birkholz obtained his Bachelor’s (2009) and Master’s (2011) degree in cell biology at the University of Osnabrueck. He then started as PhD student in the Department of Biophysics and completed his studies in 2017 with *summa cum laude*. After a short period as postdoctoral researcher until the end of 2018 he moved to Mainz and is now Scientist at BioNTech working on Analytics and Assay Development and Formulation & Drug Delivery.

Wednesday June 23, 2021
